

## Maintenance Drug List

Maintenance drugs are medications prescribed for chronic, long-term conditions and are taken on a regular, recurring basis. Examples of chronic conditions that may require maintenance drugs are: high blood pressure, high cholesterol, asthma and diabetes. Drugs included on the Maintenance Drug List are well-established medications that have proven safety and efficacy and are considered first-line therapy options for the treatment of common chronic conditions.

The list refers to the most common dosage forms and strengths of a product. Less common forms or strengths of a listed product may not be covered under the maintenance drug list. Most of these drugs are now available as generic drugs.

*Due to the large number of available medicines, this list is not all inclusive.* The list is subject to change.

Up to a 90-day supply is covered for drugs listed on the EpiphanyRx Maintenance Drug List if filled at an in-network retail pharmacy. To fill a 90-day prescription, the physician must write the prescription for a 90-day supply.

Drugs that are not listed on the Maintenance Drug List will be limited to 30-day supply at retail pharmacies.

Quantity limits, prior authorization and step-therapy requirements may apply.

Generic products are listed in lower case letters, brand name products are listed in CAPITAL letters. When a generic product is available, the prescriptions will be filled with FDA approved generic. If a generic is not available, brand product will be covered at your applicable brand copay.

### PRODUCT

ABILIFY	ACTOPLUS MET	ADMELOG SOLOSTAR
ABILIFY MAINTENA	ACTOPLUS MET XR	ADVAIR DISKUS
acamprosate calcium	ACTOS	ADVAIR HFA
acarbose	ACULAR	AEROSPAN
ACCOLATE	ACULAR LS	afeditab cr
acebutolol hcl	ACUVAIL	afirmelle
ACEON	acyclovir	AFREZZA
acetazolamide	adapalene	AGGRENOX
acetazolamide er	ADASUVE	AGRYLIN
ACTIGALL	ADLYXIN	AIRDUO RESPICLICK 113/14
ACTIVELLA	ADLYXIN STARTER PACK	AIRDUO RESPICLICK 232/14
